Scripting is a great tool for performing a variety of tasks. A script can be as simple as an automated common task or as complex as an entire new feature.

## **Scripting in InDesign - Adobe**

Scripting is often contrasted with system programming, as in Ousterhout's dichotomy or "programming in the large and programming in the small". In this view, scripting is particularly glue code, connecting software components, and a language specialized for this purpose is a glue language.
