

the kuwaiti oil fires pdf

The most obvious environmental problem during the Gulf War was the largest oil spill on record and the torching of oil wells in the Kuwaiti oil fields. The smoke from oil fires not only carried the toxic constituents that were inhaled by human beings and animals for several months but also darkened the surrounding atmosphere.

Kuwaiti Oil Fires Pdf Download | maispoustalni

The Kuwaiti oil fires were caused by Iraqi military forces setting fire to 700 oil wells as part of a scorched earth policy while retreating from Kuwait in 1991 after invading the country but being driven out by Coalition military forces (see Gulf War). The fires started in January and February 1991 and the last one was extinguished by November 1991.

[[RUBATO]]The Kuwaiti oil fires were caused by Iraqi military forces setting fire to a reported 605 to 732 oil wells along with an unspecified number of oil filled low-lying areas, such as oil lakes and fire trenches, as part of a scorched earth policy while retreating from Kuwait in 1991 due to the advances of Coalition military forces in the Persian Gulf ...

Kuwaiti oil fires | Military Wiki | FANDOM powered by Wikia

Military effects. Land mines had been placed in areas around the oil wells and military demining was necessary before the fires could be put out. Around 5 million barrels (790,000 m³) of oil were lost each day. Eventually, privately contracted crews extinguished the fires, at a total cost of US\$ 1.5 billion to Kuwait.
